

WATER STORAGE MANUFACTURER POTABLE WATER TANKS

AVIENT SOLUTION

WithStand™ Antimicrobial Additives

WHY AVIENT?

- Formulated a multi-polymer solution that ensured microbial and fungal growth were diminished while preserving polymer performance
- Utilized antimicrobials to mitigate the causal effect of undesirable tastes and odors
- Enabled customer to meet requirements through Avient's knowledge and expertise of regulatory protocols

LEARN MORE

KEY REQUIREMENTS

- Diminish growth of microbials in water tanks to provide differentiating feature for landmark product launch
- Prevent undesirable odor associated with bacteria and fungal growth on the product's polymer surface
- Meet FDA, NSF, and UL regulatory requirements
