DISCLAIMER

Forward-Looking Statements
In this presentation, statements that are not reported financial results or other historical information are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements give current expectations or forecasts of future events and are not guarantees of future performance. They are based on management’s expectations that involve a number of business risks and uncertainties, any of which could cause actual results to differ materially from those expressed in or implied by the forward-looking statements. They use words such as “will,” “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe” and other words and terms of similar meaning in connection with any discussion of future operating or financial condition, performance and/or sales. In particular, these include statements relating to future actions; prospective changes in raw material costs, product pricing or product demand; future performance; estimated capital expenditures; results of current and anticipated market conditions and market strategies; sales efforts; expenses; the outcome of contingencies such as legal proceedings and environmental liabilities; and financial results.

Factors that could cause actual results to differ materially from those implied by these forward-looking statements include, but are not limited to:

- Disruptions, uncertainty or volatility in the credit markets that could adversely impact the availability of credit already arranged and the availability and cost of credit in the future;
- The effect on foreign operations of currency fluctuations, tariffs and other political, economic and regulatory risks;
- The current and potential future impact of the COVID-19 pandemic on our business, results of operations, financial position or cash flows, including without any limitation, any supply chain and logistics issues;
- Changes in polymer consumption growth rates and laws and regulations regarding plastics in jurisdictions where we conduct business;
- Fluctuations in raw material prices, quality and supply, and in energy prices and supply;
- Production outages or material costs associated with scheduled or unscheduled maintenance programs;
- Unanticipated developments that could occur with respect to contingencies such as litigation and environmental matters;
- Our ability to pay regular quarterly cash dividends and the amounts and timing of any future dividends;
- Information systems failures and cyberattacks;
- Amounts for cash and non-cash charges related to restructuring plans that may differ from original estimates, including because of timing changes associated with the underlying actions; and
- Other factors described in our Annual Report on Form 10-K for the year ended December 31, 2020 under Item 1A, “Risk Factors.”

The above list of factors is not exhaustive. We undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise. You are advised to consult any further disclosures we make on related subjects in our reports on Form 10-Q, 8-K and 10-K that we provide to the Securities and Exchange Commission.

Use of Non-GAAP Measures
This presentation includes the use of both GAAP (generally accepted accounting principles) and non-GAAP financial measures. The non-GAAP financial measures include: adjusted EPS, adjusted operating income, free cash flow and adjusted EBITDA.

Avient’s chief operating decision maker uses these financial measures to monitor and evaluate the ongoing performance of the Company and each business segment and to allocate resources.

A reconciliation of each historical non-GAAP financial measure with the most directly comparable GAAP financial measure is attached to this presentation which is posted on our website at www.avient.com.

Avient acquired the Clariant Color business on July 1, 2020 (the “Acquisition Date”). To provide comparable financial results, the Company references “pro forma” financial metrics, which include the business results of Clariant Color for periods prior to the Acquisition Date. Management believes this provides comparability of the performance of the combined businesses.

Unless otherwise stated, Adjusted Operating Income, Adjusted EBITDA and Adjusted EPS figures included in this presentation exclude the impact of special items as defined in our quarterly earnings releases.
Avient Corporation (NYSE: AVNT) provides specialized and sustainable material solutions that transform customer challenges into opportunities, bringing new products to life for a better world.

Examples include:
- Unique technologies that improve the recyclability of products and enable recycled content to be incorporated, thus advancing a more circular economy
- Light-weighting solutions that replace heavier traditional materials like metal, glass and wood, which can improve fuel efficiency in all modes of transportation and reduce carbon footprint
- Sustainable infrastructure solutions that increase energy efficiency, renewable energy, natural resource conservation and fiber optic / 5G network accessibility

Avient employs approximately 8,700 associates and is certified ACC Responsible Care® and a founding member of the Alliance to End Plastic Waste.

OUR VISION
At Avient, we create specialized and sustainable material solutions that transform customer challenges into opportunities, bringing new products to life for a better world.

OUR STRATEGY
Specialization
Differentiates us through unique value-creating offerings to our customers.

Globalization
Positions us to serve our customers consistently, everywhere in the world.

Operational Excellence
Empowers us to respond to the voice of the customer with relentless continuous improvement.

Commercial Excellence
Governs our activities in the marketplace to deliver extraordinary value to our customers.

OUR CULTURE
Core Values

These core values, which begin with our individual decisions and actions, focus our attention on putting the customer first by creating genuine value through collaboration, innovation and an unwavering commitment to excellence. We will uphold these values with the utmost integrity in all that we do.

Personal Values
Integrity. Honesty. Respect.

These personal values begin with each of us—the judgments and decisions we make as individuals affect the way Avient is viewed in the marketplace and in the communities where we work.
Innovation is the lifeblood of a specialty company. We create specialized and sustainable material solutions that transform customer challenges into opportunities, bringing new products to life for a better world.

We partner with Brand Owners / OEMs, processors and assemblers to enable their goals in applications like packaging, healthcare, consumer goods, transportation, wire & cable, building & construction and textiles. Our customers value the breadth of our solutions as we can tap into a broad array of raw materials to solve their specific needs. Our formulation expertise supports material science decisions, while our processing expertise guides customers to use the materials properly. Lastly, our design capabilities ensure that the application is designed perfectly for the specific end use.

Challenge Accepted.
At Avient, we’ve built a culture of winning and how we do so is unique, lasting and difficult to replicate. It’s why customers choose us. And we have over 25,000 who do.

Whether it’s an ambitious start-up bringing a new product to market, or a large, multi-national OEM looking for consistency and reliability of global supply, Avient is built for long-term partnerships. Tenure of our relationships with multi-national OEMs exceeds 15 years. Big or small, we earn customers, and we keep them.

Speed to market is essential today, and Avient plays a crucial role in our customers’ success. Our exceptional polymer scientists and design engineers are integral to their product development process. We iterate fast and often. Design times can be less than three days for colorants.

Ultimately, it’s about delivery – on time, efficient, and to the exact quality specifications that our customers demand. With over 100 Avient production and distribution facilities, all operating with the rigor of Lean Six Sigma principles and excellence, we are proud to serve our valued customers wherever they need us. That’s winning. That’s Avient.

**Deep Customer Relationships & Application Know-How**
We sell solutions not commodities.

**Superior Design Capabilities & Advanced Analytics**
We iterate fast and often.

**Global Footprint Strategically Aligned to Serve Customers**
We produce locally, serve globally.

**25,000+ CUSTOMERS**
**>70% of sales**
**ARE CUSTOMIZED SOLUTIONS TO UNIQUE SPECIFICATIONS**

In July 2020, we completed the acquisition of the Clariant Color business, the largest acquisition in the 20-year history of our company.

We did so at a time when the world craves a more sustainable planet, unprecedented innovation and economic growth. It’s also a time where people seek strong relationships, diverse perspectives and an opportunity to accept the most pressing challenges of today.

It’s in this spirit that we joined legacy PolyOne and the Clariant Color business, two complementary businesses, and formed a new one that we’ve named Avient.

As one, we are better positioned than ever before to lead and to make a positive difference.

We are better together through:

**Keeping Safety First** — PolyOne and Clariant are both ACC Responsible Care® companies, and nothing is more important than the health, safety and well-being of our people.

**Investing in Innovation** — Specialty companies invest to grow, so we ensure our resources are concentrated on material science for high-growth end markets, poised for value creation in the long term.

**Operating Globally, Serving Locally** — As a truly global company, we have operations and technical expertise around the world to efficiently serve our customers…wherever they may need us.

**Leveraging Service as Our Timeless Differentiator** — We serve our customers with excellence to build trusting, lasting and collaborative relationships.

**Leading in Sustainability** — PolyOne and Clariant are both founding members of the Alliance to End Plastic Waste, and we are committed to meeting the needs of the present without compromising the ability of future generations to do the same.

**Being a Great Place to Work** — We listen to feedback from our associates then take action in building our high-performance culture and being a global employer of choice.

**Supporting Diversity and Inclusion** — All associates are valued and encouraged to bring their true selves to work every day, and ensuring equal access and opportunity will contribute to our organization’s success.

**Thriving as a Specialty Growth Company** — Performance is inextricably linked to the investments we make in People, Products and Planet. Solidifying Avient as a specialty growth company ensures ongoing longevity and value creation for our associates, customers, communities and shareholders.

These endeavors are made possible by the joining of our businesses.

**We are better together.**

**We are Avient.**

<td><strong>$54</strong></td>
<td><strong>$85</strong></td>
</tr>
</tbody>
</table>

- Integration going extremely well: synergy target increased to $85 million at December 9th Investor Day
- Relentless focus on guiding principles of safety first, employee collaboration and exceeding customer expectations
- Future revenue synergies are not part of these estimates and represent additional growth over the long term
Revenue from sustainable solutions grew 16% in 2021 and expected to grow 8-12% in 2022 as our innovation efforts and collaboration with customers accelerates.

Investments centered around innovation and global sustainability megatrends:

- **Enabling a circular economy** – Technologies that allow for increased use of post-consumer recycled (PCR) material and improve recyclability of plastics
- **Light-weighting** – Composites and CAI applications to reduce weight and material requirements, which minimize energy and carbon emissions
- **Eco-Conscious** – Health and human safety applications as well as Avient’s alternative materials to replace lead, PVC, halogens, BPA and other less eco-friendly options

*Avient Sustainable Solutions definitions aligned with FTC 2012 Guide for the Use of Environmental Marketing Claims (“Green Guides”)

2021 HIGHLIGHTS

• **Record results** – highest level of sales ($4.8B) and earnings ($3.05 adjusted EPS) in company history

• **Successful Clariant Color integration** – net debt to adjusted EBITDA reduced to 2.2x, one-year ahead of schedule

• Recognized as one of **America’s Most Responsible Companies** by Newsweek

• Earned 3rd consecutive **Great Place to Work** certification
2022 SUMMARY

• 15% adjusted EPS growth to $3.50, led by growth in sustainable solutions and increased synergy realization

• Continued strong synergy capture from the Clariant Color integration: $75M anticipated run-rate synergies by the end of 2022

• Adjusted EBITDA of $635M represents 9% growth above 2021 – 11% excluding the impact of foreign currencies

• Deleveraged to 1.8x net debt to adjusted EBITDA by the end of 2022
PEER COMPARISONS
As a specialty formulator, we don’t require significant capital investment, as compared to the base resin raw material suppliers we purchase from. Even more, our manufacturing capabilities are flexible and easily adaptable to changing customer needs.

As we grow, we can add capacity with minimal investment. Whether an additional line at an existing manufacturing plant, or a new facility in a growing region, we ramp-up quickly and cost-efficiently.

Source: Peer data per Bloomberg market data as of February 15, 2022.
Avient reflects 2022 estimated revenue of $5.100M and estimated CAPEX of $90M (excludes IT system upgrade of $25M and synergy capture CAPEX of $20M)
Being asset light helps us to generate strong free cash flow that is in line with specialty formulators.

Our free cash flow supports shareholder value creation through investing in R&D for organic growth, completing bolt-on acquisitions, and returning cash to shareholders via our dividend program and opportunistic share repurchases.

HIGH FREE CASH FLOW CONVERSION

Free Cash Flow Conversion (1)
2022E (%)
With the Clariant Color business acquisition and divestment of the PP&S business, our exposure is now concentrated in less-cyclical and high-growth markets.

Over the last 10 years, our multiple has expanded as we have progressed in our portfolio transformation.

As a specialty formulator we have more room to go. We expect this expansion to continue as we execute our strategy, increase margins and consistently grow earnings in excess of the market.

Our Valuation Versus Peers

Total Enterprise Value / 2022E EBITDA

Avient reflects 2022 estimated EBITDA of $635M. Past Avient valuations reflect forward 12 months EBITDA at December 31 of the respective years.
SUMMARY: WHY INVEST IN AVIENT?

We are a specialty formulator that enables many of the world’s products through innovation and custom solutions. We take great pride in our essential role and responsibility—to our people, our customers, our planet and our shareholders.

In 2021, we delivered substantial earnings growth and strong cash flow generation as we emerged from the COVID-19 pandemic. We will deliver for our stakeholders through multiple value creation levers—many of which are unique to Avient:

- Demand for sustainable solutions, healthcare, and composites, together with Clariant Color revenue synergies, that will drive long-term revenue growth in excess of GDP
- Clariant color cost synergy capture will result in significant near-term benefit

In addition, we remain committed to increasing annual dividends in line with earnings growth and opportunistically buying back shares, all while remaining modestly levered.

Simply put…

We solve customers’ most pressing material science challenges.

We create value for our stakeholders and we love to win.

We are Avient.
• Significant raw material price inflation and tight inventory continued in Q4 2021
  o For the full year, the average cost of hydrocarbon based materials was up 50% in 2021
  o For the full year, the average cost of non-hydrocarbon based materials was up 12% in 2021

• Additionally, we continued to experience other supply chain challenges during Q4 related to raw material spot purchases, freight constraints and productivity loss as a result of these shortages

~40% hydrocarbon based
(Grey shaded materials are hydrocarbon based, includes portion of “Other Raw Materials”)

*Based on 2021 purchases, excludes Distribution business*
