

ENVIRONMENTAL POLICY

Avient Corporation conducts its operations in an environmentally responsible manner that is protective of the communities in which we operate. Our environmental management system assures compliance with applicable environmental laws and regulations.

We are committed to the continual improvement of environmental performance, including compliance assurance, energy use and GHG emissions, water, waste, and biodiversity. Setting and periodically reviewing environmental objectives and targets assures excellence in environmental leadership. As a member of the American Chemistry Council, we have adopted Responsible Care® Guiding Principles to guide our efforts in continuous improvement.

It is the responsibility of each person at Avient to ensure that all operations in the company are carried out in accordance with this policy. It is Avient's expectation that our stakeholders be equally committed to environmental responsibility.
