EUROPEAN CABLE MANUFACTURER

SEMI-TIGHT BUFFER FOR INDOOR DUPLEX CABLES

KEY REQUIREMENTS

• Low shrinkage for connectorization
• Easy to strip for efficient installation
• Good kink resistance
• Resistance to chemicals and filling compounds

AVIENT SOLUTION

ECCOH™ 6151 Formulation

WHY AVIENT?

• Provided an alternative solution, with improved performance, compared to PA12 and PBT materials on the market
• Reduced shrinkage and improved strippability for easier installation
• Reduced smoke production, improving overall fire performance
• Increased processing speeds, reducing overall manufacturing cost
