DISCLAIMER

Forward-Looking Statements

Certain statements contained in or incorporated by reference into this presentation constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements give current expectations or forecasts of future events and are not guarantees of future performance. They are based on management’s expectations that involve a number of business risks and uncertainties, any of which could cause actual results to differ materially from those expressed in or implied by the forward-looking statements. You can identify these statements by the fact that they do not relate strictly to historic or current facts. They use words such as "will," "anticipate," "estimate," "expect," "project," "intend," "plan," "believe" and other words and terms of similar meaning in connection with any discussion of future operating or financial condition, performance and/or sales. In particular, these include statements relating to future actions; prospective changes in raw material costs, product pricing or product demand; future performance; estimated capital expenditures; results of current and anticipated market conditions and market strategies; sales efforts; expenses; the outcome of contingencies such as legal proceedings and environmental liabilities; and financial results.

Factors that could cause actual results to differ materially from those implied by these forward-looking statements include, but are not limited to:

- Disruptions, uncertainty or volatility in the credit markets that could adversely impact the availability of credit already arranged and the availability and cost of credit in the future;
- The effect on foreign operations of currency fluctuations, tariffs and other political, economic and regulatory risks;
- The current and potential future impact of the COVID-19 pandemic on our business, results of operations, financial position or cash flows, including, without limitation, any supply chain and logistics issues;
- Changes in laws and regulations regarding plastics in jurisdictions where we conduct business;
- Fluctuations in raw material prices, quality and supply, and in energy prices and supply;
- Production outages or material costs associated with scheduled or unscheduled maintenance programs;
- Unanticipated developments that could occur with respect to contingencies such as litigation and environmental matters;
- Our ability to operate at a reasonable rate, including without limitation, changes in economic conditions, changes in interest rates, changes in the rate of inflation and other recessionary conditions;
- An inability to operate at a profit or sustain prices for products or services;
- Our ability to achieve strategic objectives and successfully integrate acquisitions, including Avient Protective Materials (APM);
- An inability to raise or sustain prices for products or services;
- Our ability to achieve strategic objectives and successfully integrate acquisitions, including Avient Protective Materials (APM);
- Information systems failures and cyberattacks;
- Amounts for cash and non-cash charges related to restructuring plans that may differ from original estimates, including because of timing changes associated with the underlying actions; and
- Other factors affecting our business beyond our control, including without limitation, changes in the general economy, changes in interest rates, changes in the rate of inflation and any recessionary conditions.

Use of Non-GAAP Measures

This presentation includes the use of both GAAP (generally accepted accounting principles) and non-GAAP financial measures. The non-GAAP financial measures include: Adjusted Earnings Per Share, Net Debt / Adjusted EBITDA, and Adjusted EBITDA.

Avent's chief operating decision maker uses these financial measures to monitor and evaluate the ongoing performance of Avent and each business segment and to allocate resources.

A reconciliation of each historical non-GAAP financial measure with the most directly comparable GAAP financial measure is attached to this presentation which is posted on our website at www.avient.com.

When showing constant dollar figures on GAAP and non-GAAP financial measures, the foreign exchange impact is calculated by using current foreign exchange rates and applying them to the prior period results.

Avent does not provide reconciliations of forward-looking non-GAAP financial measures, such as outlook for Adjusted EBITDA, Adjusted Earnings Per Share and Free Cash Flow, to the most comparable GAAP financial measures on a forward-looking basis because Avent is unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and amount of certain items, such as, but not limited to, restructuring costs, environmental remediation costs, acquisition-related costs, and other non-routine costs. Each of such adjustments has not yet occurred, are out of Avent's control and/or cannot be reasonably predicted. For the same reasons, Avent is unable to address the probable significance of the unavailable information.

Pro Forma Financial Information

The Company acquired Avient Protective Materials (“Dyneema”) on September 1, 2022 (the “Acquisition Date”) and sold the Distribution segment on November 1, 2022. To provide comparable results, the company references “pro forma” financial metrics, which include the business results of Avient Protective Materials for periods prior to the Acquisition Date, as if the transaction occurred on January 1, 2021 and reflect Distribution as a discontinued operation. Management believes this provides comparability of the performance of the combined businesses.

Unless otherwise stated, Adjusted EBITDA figures included in this presentation exclude the impact of special items as defined in our quarterly earnings releases. Additionally, Adjusted EPS excludes the impact of special items and amortization expense associated with intangible assets.

*Guidance as of February 15, 2023 Webcast*

25,000+ CUSTOMERS

100% of sales are customized solutions to unique specifications

Headquartered in Avon Lake, OH (Cleveland)

100+ manufacturing plants

- U.S. and Canada
- Latin America
- Europe, Middle East & Africa
- Asia
Avient Corporation (NYSE: AVNT) provides specialized and sustainable material solutions that transform customer challenges into opportunities, bringing new products to life for a better world.

Examples include:
- Unique technologies that improve the recyclability of products and enable recycled content to be incorporated, thus advancing a more circular economy
- Light-weighting solutions that replace heavier traditional materials like metal, glass and wood, which can improve fuel efficiency in all modes of transportation and reduce carbon footprint
- Sustainable infrastructure solutions that increase energy efficiency, renewable energy, natural resource conservation and fiber optic / 5G network accessibility

Avient is a certified ACC Responsible Care® and a founding member of the Alliance to End Plastic Waste.

OUR VISION
At Avient, we create specialized and sustainable material solutions that transform customer challenges into opportunities, bringing new products to life for a better world.

OUR STRATEGY
Specialization
Differentiates us through unique value-creating offerings to our customers.

Globalization
Positions us to serve our customers consistently, everywhere in the world.

Operational Excellence
Empowers us to respond to the voice of the customer with relentless continuous improvement.

Commercial Excellence
Governs our activities in the marketplace to deliver extraordinary value to our customers.

OUR CULTURE
Core Values

These core values, which begin with our individual decisions and actions, focus our attention on putting the customer first by creating genuine value through collaboration, innovation and an unwavering commitment to excellence. We will uphold these values with the utmost integrity in all that we do.

Personal Values
Integrity. Honesty. Respect.

These personal values begin with each of us—the judgments and decisions we make as individuals affect the way Avient is viewed in the marketplace and in the communities where we work.
Innovation is the lifeblood of a specialty company. We create specialized and sustainable material solutions that transform customer challenges into opportunities, bringing new products to life for a better world.

We partner with Brand Owners / OEMs, processors and assemblers to enable their goals in applications like packaging, healthcare, consumer goods, transportation, wire & cable, building & construction and textiles. Our customers value the breadth of our solutions as we can tap into a broad array of raw materials to solve their specific needs. Our formulation expertise supports material science decisions, while our processing expertise guides customers to use the materials properly. Lastly, our design capabilities ensure that the application is designed perfectly for the specific end use.

Challenge Accepted.
Q4 2022 VS. GUIDANCE

Guidance: $200
Actual: $293

FY 2022 VS. GUIDANCE

(in millions)
- Completed sale of Distribution and paid down $750M of debt in November.
- Strong free cash flow in fourth quarter reduced leverage and enabled paydown of additional $200M of debt.
- Fixed/Floating Debt Ratio 63/37.
- Proven track record of deleveraging following acquisitions through consistent free cash flow generation.
2022 TRANSFORMATIONAL PORTFOLIO ENHANCEMENTS

Dyneema® Acquisition
- $1.48B acquisition strengthens composites platform
- Significantly improved EBITDA margins

Distribution Divestiture
- $950M divestiture results in 100% specialty sales
- Strong exit multiple of 10x TTM EBITDA despite market volatility

Improved Portfolio
- EBITDA margins expanded from 12% to 16%
- Diversified end markets with reduced exposure to more cyclical industries
