DISCLAIMER

Forward-Looking Statements

Certain statements contained in or incorporated by reference into this presentation constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements give current expectations or forecasts of future events and are not guarantees of future performance. They are based on management’s expectations that involve a number of business risks and uncertainties, any of which could cause actual results to differ materially from those expressed in or implied by the forward-looking statements. You can identify these statements by the fact that they do not relate strictly to historic or current facts. They use words such as “will,” “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe” and other words and terms of similar meaning in connection with any discussion of future operating or financial condition, performance and/or sales. In particular, these include statements relating to future actions; prospective changes in raw material costs, product pricing or product demand; future performance; estimated capital expenditures; results of current and anticipated market conditions and market strategies; sales efforts; expenses; the outcome of contingencies such as legal proceedings and environmental liabilities; and financial results.

Factors that could cause actual results to differ materially from those implied by these forward-looking statements include, but are not limited to:

- Disruptions, uncertainty or volatility in the credit markets that could adversely impact the availability of credit already arranged and the availability and cost of credit in the future;
- The effect on foreign operations of currency fluctuations, tariffs and other political, economic and regulatory risks;
- Changes in laws and regulations regarding plastics in jurisdictions where we conduct business;
- Fluctuations in raw material prices, quality and supply, and in energy prices and supply;
- Production outages or material costs associated with scheduled or unscheduled maintenance programs;
- Unanticipated developments that could occur with respect to contingencies such as litigation and environmental matters;
- Our ability to achieve strategic objectives and successfully integrate acquisitions, including Avent Protective Materials (APM);
- An inability to raise or sustain prices for products or services;
- Our ability to pay regular quarterly cash dividends and the amounts and timing of any future dividends;
- Information systems failures and cyberattacks;
- Amounts for cash and non-cash charges related to restructuring plans that may differ from original estimates, including because of timing changes associated with the underlying actions; and
- Other factors affecting our business beyond our control, including without limitation, changes in the general economy, changes in interest rates, changes in the rate of inflation and any recessionary conditions.

Use of Non-GAAP Measures

This presentation includes the use of both GAAP (generally accepted accounting principles) and non-GAAP financial measures. The non-GAAP financial measures include: Adjusted Earnings Per Share, Free Cash Flow, Net Debt/Adjusted EBITDA and Adjusted EBITDA.

Avient’s chief operating decision maker uses these financial measures to monitor and evaluate the ongoing performance of Avient and each business segment and to allocate resources.

A reconciliation of each historical non-GAAP financial measure with the most directly comparable GAAP financial measure is attached to this presentation which is posted on our website at www.avient.com.

When showing constant dollar figures on GAAP and non-GAAP financial measures, the foreign exchange impact is calculated by using current foreign exchange rates and applying them to the prior period results.

Avient does not provide reconciliations of forward-looking non-GAAP financial measures, such as outlook for Adjusted EBITDA, Adjusted Earnings Per Share, Net Debt/Adjusted EBITDA and Free Cash Flow to the most comparable GAAP financial measures on a forward-looking basis because Avient is unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and amount of certain items, such as, but not limited to, mark-to-market adjustments associated with benefit plans, environmental remediation costs, acquisition-related costs, and other non-routine costs. Each of such adjustments has not yet occurred, are out of Avient’s control and/or cannot be reasonably predicted. For the same reasons, Avient is unable to address the probable significance of the unavailable information.

Pro Forma Financial Information

The Company acquired Avient Protective Materials (“Dyneema”) on September 1, 2022 (the “Acquisition Date”) and sold the Distribution segment on November 1, 2022. To provide comparable results, the company references “pro forma” financial metrics, which include the business results of Avient Protective Materials for periods prior to the Acquisition Date, as if the transaction occurred on January 1, 2021 and reflect Distribution as a discontinued operation. Management believes this provides comparability of the performance of the combined businesses.

Unless otherwise stated, Adjusted EBITDA figures included in this presentation exclude the impact of special items as defined in our quarterly earnings releases. Additionally, Adjusted EPS excludes the impact of special items and amortization expense associated with intangible assets.
AVIENT PROTECTIVE MATERIALS INTEGRATION

Keeping Safety First
- Relentless focus on best-in-class safety performance as an ACC Responsible Care® organization

Exceeding Customer Expectations
- Complementary technologies and customer relationships offer opportunity for future revenue synergies
- Proven innovation-led commercial strategy with strong brands and participation across the full value chain

Collaboration in Innovation
- Leveraging Dyneema®, the world’s strongest fiber™, to accelerate growth of sustainable, ultralight and high performance applications

People – Culture is Everything
- Talented, passionate and collaborative associates drive an effective integration strategy
- Strong Great Places to Work® scores reflect positive integration efforts in first year

Q1 PERFORMANCE
Q1 2023 PERFORMANCE VS. GUIDANCE
(TOTAL COMPANY)

**Sales**
- Guidance: $845
- Actual: $846

**Adjusted EBITDA**
- Guidance: $125
- Actual: $134

**Adjusted EPS**
- Guidance: $0.55
- Actual: $0.63
Q1 2023 PERFORMANCE VS. GUIDANCE
(TOTAL COMPANY)

Adjusted EBITDA Margin %

Guidance 14.8%
Actual 15.8%

Better-than-expected margins driven by:

- Resilient demand for composites and sustainable solutions which improved mix of higher margin applications
- Deceleration of raw material inflation
- Cost reduction activities

YoY Comparison against 2022 pro forma results
Aging infrastructure driving need for greater technological advancements and upgrades

Increased focus on strength and capacity of electrical grid plays into further adoption of composites into the market

Where Avient Wins:
- UV, weather-resistance, customized capabilities
- Best-in-class customer responsiveness
- Local high-quality manufacturing, unparalleled breadth of portfolio
- Expanding position in insulators, utility poles, crossarms, and wind energy
Fiber-optic investments from AT&T, Corning, Commscope continue to drive industry toward innovation.

$42B BEAD program in Infrastructure Bill to increase cable deployments; well-positioned to capitalize on “Made in America” requirement and “last mile” buildout.

Where Avient Wins:
- Flame retardance, weather-resistance enables faster, safer, more reliable connections.
- Local manufacturing, unparalleled breadth of portfolio.
- Expanding position in insulation for wire jacketing, 5G buildout.

Source: U.S. Chamber of Commerce; BEAD refers to Broadband Equity, Access, and Deployment Program.
Fiscal Year 2024 U.S. National Defense budget of $842 billion submitted to Congress in Q1 2023

European NATO members annual defense spend expected to increase by up to 20%

**Where Avient Wins:**

- Dyneema® is the world’s strongest fiber™
  - One of the highest strength to weight ratios of any material on Earth
- Direct relationships with industry leading armor manufacturers
- Resistant to most chemicals, UV, and moisture to handle any environment

*Source: US Department of Defense, defense.gov, NATO*
TRANSPORTATION

• Increased EPA regulations requiring improved fuel efficiency, enabled in part by lower-weight vehicles
• Automakers preparing for 2/3 of U.S. vehicles to be 100% electric by 2032

Where Avient Wins:

✓ Lightweight panels that establish both strength and stiffness resulting in decreased energy usage, lower emissions
✓ Long-lasting Color applications to resist UV exposure, temperature fluctuations and exceed the stylistic requirements of global automakers

PEER COMPARISONS
AVIENT IS ASSET LIGHT

Capex / Revenue
2023E (%)

Source: Peer data per Bloomberg as of April 28, 2023
Note: Avient reflects 2023 estimated revenue of $3,400 and estimated run-rate CAPEX of $110M.
FREE CASH FLOW CONVERSION

Source: Peer data per Bloomberg as of April 28, 2023

Note: Free cash flow conversion calculated as (Adjusted EBITDA – Capex) / Adjusted EBITDA. Avient reflects 2023 adjusted EBITDA guidance of $530M and estimated run-rate CAPEX of $110M.
MULTIPLE EXPANSION

EV / 2023E EBITDA

Source: Peer data per Bloomberg as of April 28, 2023
Note: Avient reflects 2023 adjusted EBITDA guidance of $530M and closing share price of $38.51. Avient 2011 and 2018 valuations reflect trailing 12 months EBITDA at December 31 of the respective years.
Senior management uses comparisons of adjusted net income from continuing operations attributable to Avient shareholders and diluted adjusted earnings per share (EPS) from continuing operations attributable to Avient shareholders, excluding special items, to assess performance and facilitate comparability of results. Senior management also uses operating income before special items to assess performance and allocate resources because senior management believes that these measures are useful in understanding current profitability levels and how it may serve as a basis for future performance. In addition, operating income before the effect of special items is a component of Avient’s annual incentive plans and is used in debt covenant computations. We also monitor earnings (defined as net income from continuing operations) before interest, taxes, depreciation and amortization (EBITDA) and adjusted EBITDA (EBITDA before the impact of special items) as a supplement to our GAAP measures. EBITDA and Adjusted EBITDA are non-GAAP financial measures that management uses in evaluating operating performance. Further, as a result of Avient’s portfolio shift to a pure play specialty formulator, it has completed several acquisitions and divestitures which have resulted in a significant amount of intangible asset amortization. Management excludes intangible asset amortization from adjusted EPS as it believes excluding acquired intangible asset amortization is a useful measure of current period earnings per share.

Senior management believes the measures described above are useful to investors because they allow for comparison to Avient's performance in prior periods without the effect of items that, by their nature, tend to obscure Avient's operating results due to the potential variability across periods based on timing, frequency and magnitude. The presentation of these non-GAAP measures is not intended to be considered in isolation from, as a substitute for, or as superior to, the financial information prepared and presented in accordance with U.S. GAAP. Non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation from, or solely as alternatives to, financial measures prepared in accordance with GAAP. The presentation of these measures may be different from non-GAAP financial measures used by other companies.

A reconciliation of these measures to their most directly comparable GAAP measures is provided in the tables below.
