POSITION ON BIODIVERSITY

Avient Corporation is committed to ensuring our operations meet applicable regulations for performance, safety, and environmental due diligence. We recognize the importance of a healthy and thriving ecosystem and are committed to monitoring and assessing the biodiversity risks associated with our locations.

To support the communities in which we operate, we will continue to utilize appropriate and available tools to strategically apply resources and monitor biodiversity risks.

It is Avient's expectations that our employees follow this policy and do their part to properly report environmental data, share ideas, and foster a culture around sustainability. We expect and encourage our external stakeholders be committed to environmental responsibility and biodiversity preservation.
