

## **Dr. Christopher Murphy**

**Vice President, Research and Development  
Chief Innovation Officer**

Dr. Christopher Murphy is vice president, research and development, and chief innovation officer of PolyOne Corporation, the world's premier provider of specialty polymer materials, services and solutions.

Having joined PolyOne in May 2012, Dr. Murphy has global responsibility for driving innovation and developing new solutions and applications across all markets by collaborating with PolyOne technical teams, corporate marketing group, business units and external technology resources.

Dr. Murphy has established an impressive track record of global innovation and new product development at leading specialty companies, including Lubrizol, Elementis Specialties and Nalco Chemical Company. Throughout his career, Dr. Murphy has demonstrated the ability to lead teams around the globe to successful and innovative solutions for customers in a variety of industries.

He earned a PhD in organic chemistry from Tufts University and a bachelor's of science in chemistry from Boston College.

Dr. Murphy is a board member of Goodwill Industries of Lorain County, Inc., and a past board member for the Environmental Technology Institute in Singapore.
