

Donald K. Wiseman

Senior Vice President

President of Performance Products and Solutions

Don Wiseman is president, Performance Products and Solutions for PolyOne Corporation, the world's premier provider of specialty polymer materials, services and solutions. He is responsible for driving global growth through an array of products and services for Geon coating, molding and extrusion applications, as well as PolyOne's contract manufacturing business.

Mr. Wiseman joined PolyOne in 2015 as general manager of the company's Geon business unit from Johns Manville, where he had P&L responsibility for its Performance Materials business. He has held leadership and general management positions at performance material companies throughout his accomplished career, such as at Cabot Microelectronics Corporation, Americhem, Michelman, and Rohm & Haas.

He earned a bachelor's degree in chemical engineering from Youngstown State University, a master's in chemical engineering from University of South Carolina, and an MBA from Duke University's Fuqua School of Business.
